Introducing Our New Dentist

Beatriz Monlleo

I come from Valencia, Spain, where I went to University to study dentistry. After working in Spain for a while, I came to England in 2022.

I work as a General Dentist, but also do facial aesthetics and cosmetic dentistry (composite bonding and Invisalign®). I am passionate about changing smiles and making people confident.

Away from work, I love to spend time with friends and family, as well as with my new puppy, Kiko! I also enjoy travelling, and especially returning to my hometown to enjoy the good food and amazing sunshine.

Fun fact .. I come from a family full of dentists, ever since my great grandfather entered the profession.
